I am not sure it actually helped me do much of any better on the test

By Aaron Kelly

While I found this book more helpful to the less highly initiated in the topic (Spanish) than similar material by other companies, I am not sure it actually helped me do much of any better on the test. It is certainly easier to follow than the Kaplan material, but perhaps for that very reason didn't seem to improve my performance on the test much. It may simply be that a Spanish test is nearly impossible to prep for in any way other than an extensive knowledge of Spanish vocabulary and grammar built up over a long period of time. If you already have that, you probably don't need material like this. If you don't have it, this won't help you much.

Four Stars

By Alba F.

very good, plenty of practice exercises

0 of 1 people found the following review helpful.

Horrible, not worth getting

By A programmer

I studied this book and got 90% and 100% on the reviews at the end of the chapter. **THIS BOOK DOES NOT PREPARE YOU FOR THE SPANISH SAT!** I have taken 4 years of spanish and still got a 440.

I also feel that I need to mention that the Spanish SAT should only be taken if one is a native spanish speaker. The SAT is that difficult.
