Pearson's MySearchLab is the easiest way for students to master a writing or research project. In a recent student survey, the overwhelming majority of students are assigned writing and research projects, for which they would use research and citation tools if they were available to them. MySearchLab is a website available at no additional charge in a package with a Pearson textbook and is also available as a standalone product.

About the Author

David A. Levy has extensive experience as a teacher, therapist, writer, and researcher. He is Professor of Psychology at Pepperdine University's Graduate School of Education and Psychology, and he served as Visiting Professor of Psychology in the Soviet Union. He was honored as a Harriet and Charles Luckman Distinguished Teaching Fellow at Pepperdine, and was a recipient of the Shepard Ivory Franz Distinguished Teaching Award and Charles F. Scott Fellowship at UCLA. His numerous theoretical and empirical research studies have been published in scientific journals and presented at professional conferences. His textbook

Tools of Critical Thinking garnered widespread acclaim in both academic and clinical settings for its innovative approaches to improving thinking skills. Dr. Levy holds professional licenses both in psychology and in marriage and family therapy. As a media consultant, Levy has appeared on dozens television and radio broadcasts (including CNN, CBS, NBC, PBS, A&E, and E!), providing psychological perspectives on current events, and examining issues and trends in the mental health fields.

Eric B. Shiraev is a Russian-born American professor and author. He took his academic degrees at St.Petersburg University in Russia and completed post-doctoral program in the United States at UCLA. He served at various positions at Oregon State University, George Washington University, and George Mason University. He is an author, co-author, and co-editor of eleven books and numerous publications in the fields of cross-cultural psychology, political psychology, and comparative studies. His books are published by Allyn and Bacon, Longman, Palgrave, University of Michigan Press, and many others. In his publications, he attempts to overcome an ethnocentric bias of traditional and contemporary psychological studies and develop a new, increasingly cross-cultural and global view of human behavior and experience.

Invaluable textbook for cross-cultural psychology instructors

By Professor VDS

This text has become an invaluable tool for the courses I teach in cross-cultural psychology, both at the undergraduate and graduate levels. Although many books purport to emphasize the integration of critical thinking skills with cross-cultural psychology, this is the only one that does so successfully. My students consistently rate it favorably, and I give it my highest recommendation.

12 of 13 people found the following review helpful.

Thinking critically about cultural diversity

By Tori

How refreshing to find a book about cultural diversity that isn't rife with "politically-correct" mumbo jumbo. Instead, this text emphasizes using critical thinking tools to incisively see through the fog of current academic and social fads and fashions.

10 of 11 people found the following review helpful.

The best in cross-cultural psychology

By J. Smart

Cross-Cultural Psychology by Shiraev and Levy is the best textbook available for this field. The book explains concepts and theories very well. Additionally, it provides the reader with a very practical understanding of the field.

I can readily imagine this book being used in counseling, clinical, or general psychology classes. In addition, I would argue that this book, even outside of the classroom, would be an excellent resource to keep on one's bookshelf.

My strongest endorsement stands behind this well written book.
