About the Author

Daniel S. Gordon, CPA, owner of PCO Bookkeepers and TurfBooks, two specialty accounting firms that cater to the pest management and lawn care industries, looks into what it takes to build a successful pest management and lawn care business in this entertaining and insightful story about the evolution of a high-growth family business. While the characters are fictional, the time-tested business concepts are real and serve as a roadmap to success for the owner or manager of a pest management or lawn care company. Gordon, with more than 20 years of industry experience as an owner, manger and industry consultant, works with clients nationwide, from start-up companies to those with more than 100 employees providing financial, operational, tax advisory and exit planning services. He is a frequent speaker for the National Pest Management Association (NPMA), PLANET a national trade association representing more than 100,000 landscape industry professionals, as well as state associations and industry software user conferences. He is also a sought after facilitator of industry peer groups. A frequent columnist in several pest and lawn trade publications, Gordon is a Certified Public Accountant and graduate of Northeastern University in Boston where he graduated magna cum laude with a degree in Accounting and Management. Before his work in the pest and lawn industry, he was a tax consultant in the Stamford, CT office of Deloitte LLP.

FROM TECHNICIAN TO CEO: THE EVOLUTION OF A HIGH-GROWTH PEST CONTROL AND LAWN CARE COMPANY BY DANIEL S GORDON CPA PDF

This book is about the journey of Peter Hall, a second-generation pest control operator (PCO) and lawn care professional (LCP) who grew up amid his family business, went off to college to earn a business degree and returned home to work in, and eventually take over, the family business. While growing up, he watched his father work diligently to make a modest living for his family. While attending business school, Peter studied several facets of business, including management, accounting, finance, marketing and operations. His professors used the case method to teach, using successful high-growth, highly profitable companies as subjects. After learning about the strategies employed to expand these model companies, Peter believed he was in a position to move his family's pest and lawn business on a high-growth trajectory. But what tools would he need to make this happen? Do the lessons he learned in the classroom translate to a realistic strategy that can be used to grow a company that will dominate the market, creating above-average income and providing long-term wealth for his family?

Great advice for small service business owners

By JackbNymbull

Overall, I thought this book was really good. Definitely a really quick read. I bought it as an investor in a pest control company and while there's not anything really ground breaking in terms of ideas, the author manages to consolidate all of the key tasks that need to be focused on in order to be successful. Would have like to see some average performance indicators for more industry type stuff, but still, a great read for any small service industry businessman that is wondering why their business is struggling to get over the hump.

This may be the best pest management business guide available

By Michael

This is the single best pest management industry book I have ever read. If you are a small PCO you need to read this book, the book illustrates many of the key performance indicators that you need to manage and to grow your pest management business. Using many of the lessons learned in the book and applying the principles discussed within, we have grown from a one man start up company to the largest in our market with >\$7 million in annual revenue. This book is required reading material for all of our managers.
