GUITAR FOR KIDS FOR AGES 5-9 (HAL LEONARD GUITAR METHOD (SONGBOOKS)) BK/ONLINE AUDIO BY JEFF SCHROEDL, BOB MORRIS PDF

(Guitar Method). Guitar for Kids is a fun, easy course that teaches children to play guitar faster than ever before. Popular songs such as "Yellow Submarine," "Hokey Pokey," "I'm a Believer," "Surfin' U.S.A.," "This Land Is Your Land" and "Hound Dog" keep students motivated, and the clean, simple page layouts ensure their attention remains focused on one concept at a time. The method is equally suitable for students using electric or acoustic guitars. It can be used in combination with a guitar teacher or parents, even if they've never had any musical training themselves. The accompanying online audio contains more than 30 tracks for demonstration and play-along and is accessed using the unique code printed inside each book. No tablature included.

Great!@

By snackman

I disagree with the person who says this book is not much different. It is WAY different. Most Kids and beginners books focus on overloading people with notes and boring songs.

This book has notes on first three strings ...that's it! About as much as one can handle in a few months worth of lessons..it is just an INTRODUCTION to notes not a "learn it ALL RIGHT NOW or else!"....

This book's focus is on making music and making music FUN. It starts off with short chords which is VERY different from all the other books out there, most books make you drudge through the notes for months and months until you finally learn how to read...which you never do...and you quit...not ever getting to the REAL guitar job of playing accompaniment And the songs are fun and MUCH different from other books. I highly recommend this book. I have been teaching guitar for over 15 years and have struggled to find anything that really is FUN and educational for young people. This book has a good balance.

best guitar instruction book for kids that I have found
By dirtsounds

I have taught guitar for 12 years and was very excited when I found this book. After using it, I feel that it has been well thought out and addresses the challenges of teaching children so wonderfully. It is designed to give success early on and quickly. I also bought the Alfred Kids Guitar course book and will say that I absolutely prefer this one. This book starts out extremely simply, as does the Alfred and gets kids playing music right away, but it is much less distracting visually. It also has licensed great popular songs for use in the book whereas the Alfred uses mainly public domain tunes or songs made up for the book. The teacher parts are written out as well as the melody notes to sing along with. The other book only includes strum bars and chords, so unless you use the cd every time, it is not clear what the melody is. I let my 8 year old son start using this book and he loves it. I decided to teach the Alfred book to my 5 year old to avoid competition with his brother but he preferred the Hal Leonard because there is no singing on the cd and he thought the pictures were "stupid." I recommend the listening cd that comes with it. The sing along factor really helps kids. We have it in the car while drive to get the songs in thier heads, then when they practice they already know how to play and sing them. I love that I can teach a brand new beginner and send them home playing a song the first day. I think the age recommendation is right on, however some eight and nine year olds will progress through this very quickly and may need the next book soon. I think maybe even older beginners could find use for it as a way to quickly learn basic concepts and find success. I only wish the follow up book had as many great songs as this one.

A good book - but not substantially different from many other beginning guitar books

By R. Pearson

I have found the book useful for instructing my younger guitar students. The book teaches you the notes for the open position C major scale on the fretboard and in standard musical notation and quickly expects the student to be able to remember where they are on the staff. Other than that there is not too much emphasis on theory, and for many practice tunes there is a melody shown that the instructor can play to give the tune a fuller overall sound.
