Serves it purpose as a college text book.

By N2styx

A book required for a college book. It's not a book for a 'good read', but it serves it purpose for the college course. It comes with a 'code' if you buy this book used and the code was used, you can't use it again for online activity. And the code is not cheap. I think it's a money making scheme for those who buy used books.

Excellent as a reference book; OK as a text book

By Tech Geek

If you would like a book that comprehensively covers Spanish grammar, this one has it all. However, I think it's a better reference book than a text book. It gets into nuances in a way that is almost overwhelming to study.

Doesn't include the code

By Katie R

This book definitely does NOT include a Supersite code! You can't rent codes. Don't think you're getting a code with this book.
