Novelization of the movie

By The Reviewer Formerly Known as Kurt Johnson

This book is a novelization of DreamWorks' wonderful animated movie, Megamind. It's pretty close to what you see in the movie, though to keep it short (I assume) some of the details were left out. Also, it does not go beyond the movie, so if you are hoping for some extra details, you will be disappointed.

That said, though, this is a fun book. My young reader liked being able to commune with Megamind as a reading project, and I was glad that she found a book that she would enjoy. We both recommend this book!

My Grandson Loves It!

By Jennifer H.

If you want to get a child hooked on reading, put a Kindle in his/her hand. My 2nd grade grandson enjoys reading chapter books and this one hit the spot. He hasn't finished it yet, but he's enjoying all of the Shrek humor, and in his words, "It has a lot of chapters."
