RELIGION FOR DUMMIES BY RABBI MARC GELLMAN, MONSIGNOR THOMAS HARTMAN PDF

Why are we here?
How should we live?
What happens after we die?
Why does evil exist?

Religion For Dummies explains how the world's great religions answer questions that persist through generations. Authors Rabbi Marc Gellman and Monsignor Thomas Hartman are trusted religious advisors known as the God Squad. With wonderful wit and incredible wisdom, they host a daily talk show which reaches nearly 4 million homes in the New York area, and have appeared on numerous TV and radio shows.

This book is not a scholarly theological treatise; it's a lively, practical, hands-on resource that will help you better understand your own religion and others. You'll explore:

- Religion's role in the family and in the workplace
- The beliefs and practices of Christianity, Judaism, Islam, and other religions
- Religion's impact during major passages in life such as birth, death, and marriage
- How to join a religion and how to pray
- How religion can help you deal with issues in every day life such as conflict, adversity, marriage, divorce, and more
- Religious rituals and ethics

Religion for Dummies touches on lesser-known religions (such as, Zoroastrianism, Jainism, Sikhism). It explores how people of various faiths pray, celebrate life and death, and view moral issues. The book does not tell you what to believe, but rather encourages you to live as you believe and let your religion infuse every aspect of your life. It doesn't give simple answers to haunting, complex questions; it helps you find your own answers and pursue your own spiritual path!

Five Stars

By David Goodwin

very well written

75 of 81 people found the following review helpful.

Should be required reading - in my humble opinion

By Mr. Stanley M. Schmidt

First of all, I'm not a reader, but I was compelled to purchase and read this book after "The God Squad" appeared on *Imus in the Morning* on WFAN/MSNBC. I'm glad I purchased the book and here's why: This book breaks the major religions down to fundamental basics that the layperson can understand. After reading this book, I'm surprised there isn't more religious strife going on in the world due to the sheer differences in beliefs and theological structures.

I've always been fascinated by religion, especially since I am of the scientific/realist wing. I am, however, glad I spent the hours I did digesting this material. For the few bucks it costs - not a bad bargain.

I know other reviews are much more eloquent than this, but I wanted to toss my two cents in and give this book a "thumbs up"!
