SPIRITUAL WARFARE & THE ART OF DECEPTION: THE HIJACKING OF SPIRITUALITY BY ARI KOPEL PDF

The book exposes the tactics and strategies of the Dark Forces and how we're deceived every day, messed with and made ineffective. While we're kept distracted, we don't take the necessary action to help effect change. It demonstrates how many of us have been duped through false spirituality, how this is done and why we fall for it. The "sinister forces" animate those that create social issues, wars, injustices, suffering, environmental issues, and unprecedented conditions on the planet. They are also responsible for creating drama, health issues, financial issues, interpersonal problems and a dependence on others for our spiritual truths so that we are disconnected from Source-Creator and weakened. They then divide and conquer us, and quash our ability to "Return to God." The information in the book will show us how to detect these strategies, how not to fall for them and what we can do to finally bring Heaven on Earth.

A must-read for spiritual seekers

By Dana Micheli

In this groundbreaking book, Ari Kopel debunks the myths of the New Age Movement and inspires us to reclaim our own spiritual power. That means realizing that we do not need "gurus" to connect with God. It also means we must reexamine two key tenants of the New Age belief system: one being that "everything is working in divine order," and the other being that "we attract what we think about, therefore we shouldn't focus on any of the negative stuff going on in the world." Instead, we should focus our thoughts we want to

see in the world and it will be made manifest. If that is true, Kopel points out, why do things seem to be going horribly wrong? Acts of terrorism, murders, child and animal abuse, and that is just on a global scale. On a personal level, why are so many "spiritual" people still struggling to pay their bills, find fulfilling relationships, and attain enlightenment?

Spiritual Warfare exposes these myths and tells an ugly truth that most people do not want to acknowledge – that our world has been infiltrated by dark forces sent to disarm those who could bring light and healing. Kopel uses strong language, but she has the knowledge and the experience to back it up. Furthermore, she is not interested in indicting any person or belief, but reminding each person to use his or her own discernment in deciphering the real from the commercial. It is an eye-opening must read for anyone who considers themselves to be a spiritual seeker.

I absolutely LOVE Ari's analogies and examples that she uses to illustrate ...

By Savannah Jade

I was immediately hooked on this book! I absolutely LOVE Ari's analogies and examples that she uses to illustrate her point. This book is not fluffy and puffy or sugar coated in anyway. It is straight to the point. I appreciated all the time, effort and energy that Ari has put into putting this book out there for the masses as I feel it to be an asset to anyone struggling to find their way on the Spiritual Path or for anyone who may have been duped by the "Spiritual Bully's" out there. Your discernment is your greatest ally! And Ari outlines exactly what discernment is and how to learn to tap into your own discernment without swallowing the "bitter pill in the marshmallow". It is time to stop sleeping and become "Spiritual Lions". The time is NOW and we ARE the ones we have been waiting for! It's time to go within and connect straight to Spirit! We have a LOT of work to do and I applaud Ari for outlining the oppositions strengths so we know where we need to grow and change and truly become unified for the purpose of saving our planet and ourselves, after all this is what we did sign up for! It's time to roll up our sleeves and do the work!!!

A Huge Improvement Over The New Age Movement

By Kenny Lum

This book reminds me of The Old Chinese Proverb "Give a man a fish and you feed him for a day. Teach a man to fish and you feed him for a lifetime". That being said, this is not your ordinary book. It is more of a manual. There are three parts to it, each part gets more and more interesting. I highly recommend this book to anyone who has gone through an experience with extraterrestrials such as I have. After reading this book, I realized that I had been deceived into thinking I was the son of a man named Dylan, who controlled the seven layers of hell. He had telepathic powers and I fell for it all just because of that. That was in 2006. I have been deceived for 8 years by that man and his telepathic buddies. They made me think I was Jesus. Now I take 6 different medications or 14 pills a day. Believe me though, the dark is smart, just as the book says. They were expecting me. Now no one one believes me and just calls me bipolar schizo affective. I have read the terms "zero point" and "blank slate" in this book. These are terms I came up with when I had a manic episode, and thought I was an angel (not a Nephilim) descending to save the world. Funnily enough, they are in this book! There must be something that I'm thinking that aligns with the downloads of Prime Creator or something that correlates with the collective unconscious of humanity. I urge you to think that if you think everything is okay and that evil isn't getting out of control, imagine all the animals suffering in pain, all the humans starving, even yourself, working at your more than likely pointless job, in what the book describes as a "hamster wheel". Why do we even go to school, when there are so much faster ways to learn? Ari divides the book up into three parts. The first part is an orientation. The second talks about the problems in life. And the third talks about the solutions. We are the only ones who can make a difference. There is no one coming. The dark does not want you to know this, of course. Anyway, the only chance we have is to align ourselves with Prime Creator, for we are all divine sparks of The Prime Creator. I've read other

spiritual books that make you feel good, but now I can discern that that's all their purpose is: to make you feel good, brainwash you and to make money. Well I say to you, this book is different. It won't make you feel fuzzy and good. But you will come away with a message. And that message will stick with you. That message is that you are here to bring change. And we are up against something big. But it's nothing we can't handle. The lessons taught in this book are probably not what you want to hear, but they are lessons that you must hear, if you want to save this world, and honor the most highest ray of Prime Creator.
