THE FLYING SORCERERS BY DAVID GERROLD, LARRY NIVEN PDF

This funny and insightful science fiction classic introduces Shoogar, the greatest wizard ever known in his village. His spells can strike terror in the hearts of even his most powerful enemies. But the enemy he faces now is like none he has ever seen before. The stranger has come from nowhere and is ignorant of even the most basic principles of magic. But the stranger has an incredibly powerful magic of his own. There is no room in Shoogar's world for an intruder whose powers match his own, let alone one whose powers might exceed his. So before the blue sun can cross the face of the red sun once more, Shoogar will show this stranger just who is boss.

A wonderful romp

By Ken Coar

I picked this up (or it was loaned to me) because I was tickled by the title. It's a very entertaining story about a technologically advanced traveller's visit to a fairly primitive world, narrated by one of the primitives. It's an hilarious treatment of Clarke's Law in action, and a colossal pun near the end will delight long-time SF readers enormously.

This is definitely a 'G'-rated title in my book.

An overlooked treasure

By Lynn Bodoni

This is one of the funniest SF books out there. I've got an old tattered copy, and I will order the new edition when it comes out. The book is full of cultural, SF and fandom references. Some might be a little dated (for example, the symbol of the sheep, the horned box, is a reference to a TV with antenna, and how many people have seen one of THOSE lately?), but overall, this book holds up very well.

To answer another reviewer's question would be a spoiler, but anyone who wishes to know who Purple was based on can email me at my nickname at hotmail.

terrible Kindle edition

By Rev Otter

i liked the book -- i'm a Niven fan so i'm not sure how i missed this title. i've always enjoyed Niven's light-hearted stories.

however, the Kindle edition was horrible, with pervasive "typesetting" errors. i couldn't get more than a few pages without running into a random word in superscript/subscript, or a whole line in a different font size, or dropped characters or punctuation, and, at least once, an entire paragraph in right-justification. granted these are minor errors, but each mistake hit me like a brick wall, bringing my reading to a dead stop.

whoever translated this to the Kindle simply did a terrible job. =(
