What a shame to be OOP

By Jason Long

I'll be brief. This amazing gem of a novel has gone relatively undiscovered for far too long. As is typical with much of Crews' writing, the characters are harsh but endearing, the landscapes bleak but strangely familiar, and the wordplay grim but hopeful. It's tragic that the only place one might find this is tucked away in an old library (or here for a ridiculous price). Check out a copy, or borrow one, but read this book! And, for the love of all that is good and sacred, skip the awful film version that slaughtered everything amazing about the novel.

One of Crews' best

By Matthew Snope

One of Crews' rarer books, fluidly and impressively written, about grieving, death, change, obsession, individuality, and what it is to be human. I was very moved by this story, and know that it must have been cathartic and hopefully helpful to Crews to write, as the loss of his firstborn young son in a tragic drowning accident inspired the story. This is a great novel for anyone, but perhaps especially so to those interested in gritty Southern literature, hawks and falcons, death and grieving, Gainesville Florida, and the ways in which family and society try to make individuals conform. Highly recommended. The film adaptation is worthwhile and overall quite true to the novel, but make sure you read the novel as well. I miss Mr. Crews. This particular book is harder to find than his others, but very worth it.

Hawk

By D. H. Roberts

Anyone who's lived in, or lived near Gainesville FL, knows of Paines Prairie. It's a spot on the earth that tells you what it's about. Mr. Crews wisely uses the prairie as a backdrop/character and goes from there. Read it!
