Reciprocal System of Space and Time

By A Friendly Voice

"Scholars" refuse to re-write the text books to the correct system of science which is called the Reciprocal Systems (2); it started with the Dewey Larson's formulation of Space and Time as the units of Motion; Motion being the single force of everything. It was expanded after his death, and it unifies absolutely everything in Science.

But there is a conspiracy. "They" would rather have us think that science is still searching. It was complete long ago.

Affordable Used Copy

By M. Brown

I bought this to go along with the online edition we had to purchase for my class. I was required to get the 16th edition for my online book, but this edition is nearly identical so most of the time I just use this. There was about \$100 price difference between the two editions, and call me old-fashioned, but I often just like to hold an actual book in my hand instead reading it online. For less than \$20, this used copy was perfect.

clean, seemed brand new!

By Jeff5496

very cheap. seemed brand new upon arrival. although I never needed the book for the class, it was nice knowing I had a back up that was not wrinkled or ripped.
