3 of 3 people found the following review helpful.
novel approach to a transgender student's problems
By Amazon Customer

A fun read about more than just transgender.

This story presents a novel response to a serious problem, bullying, that affects more than just transgender students.

Good development of the main characters and an entertaining resolution.

2 of 2 people found the following review helpful.

Good, but slows in the second half of the book.

By K Marcks

The first part of the book brought me to tears in a couple places, the second half of the book did drag at times. Some of the medical stuff and actions of the medical people seems inaccurate to me, a Registered Nurse. Overall I enjoyed it.

1 of 1 people found the following review helpful.

Cheering (and cheerful) for a change...

By LL

Snowfall's stories exceed plausible optimism, but by the same token, it's what I enjoy about them. They don't take themselves too seriously in reflecting these pleasant fictional alternative realities. (Ditto her story "Frills"). Another story in this style that comes to mind is Football Girl by Susan Brown.
