Five Stars

By M. Wilde

I have long desired this set of books, but could never make room in my budget for the money. I finally was able to buy a used set for around 135 and I was beyond excited to receive them. They weren't the nicest looking things but I cared more for their content than the fact that they were old. I have started reading the first one and cannot speak highly enough for it. I wish this book set was recruited reading for every student as I know I would have loved to know all of this back in school. I also find it well worth the prices as instead of buying many different books about different periods in history, I can have this collection that covers it all. Any history lover or bookworm will not regret purchasing this.

Money well spent.

Phd in History for the taking right here. Best set of books ever written about our beginnings. Although written 60 plus years ago, the Durants spent a lifetime on this labor of love. It shows in every volume.

This 11 Volume Set of The Story of Civilization was a Christmas gift from me to my husband. I was so impressed with the condition of these books. They almost look brand new. They arrived right on time. And the best part is my husband was thrilled with his gift.
