WHEN GOD WAS A BLACK WOMAN (AND WHY SHE ISN'T NOW) BY JOSEPH R. GIBSON PDF

A few years ago I read a book by Merlin Stone called *When God Was a Woman*, in which she wrote that in the beginning, people prayed to the Creatress of Life, the Mistress of Heaven. At the very dawn of religion, God was a woman...the female deity in the Near and Middle East was revered as Goddess much as people today think of God...the original status of the Goddess was as supreme deity...the Great Goddess was regarded as immortal, changeless, omnipotent; and the concept of fatherhood had not yet been introduced into religious thought. As a critical thinker, I know that sometimes a lie is told when the truth is declared halfway or haphazardly. Stone, who happens to be a White female artist and college professor, never mentioned the racial make-up of the female divinities of the world's earliest civilizations she wrote about. I don't know understand how Stone could write a book about *When God Was a Woman* and then later write a book on *Three Thousand Years of Racism*, which focuses on uncovering evidence of racism imposed by Indo-Europeans after they conquered most of the same regions discussed in *When God Was a Woman*, and fail to connect the probability that the Goddesses she first wrote about were originally depicted as Black women. How can she admit that historical, mythological and archaeological evidence suggests that it was these northern people who brought with them the concepts of light as good and dark as evil (very possibly the symbolism of their racial attitudes toward the darker people of the southern areas) and of a supreme male deity; but not admit that the Goddess of these Black people was also Black before they and She were conquered by White people (i.e., Indo-Europeans). Whether this failing was accidental or intentional is irrelevant, yet one could assume that the Goddesses would originally resemble the people who worship them. According to Albert Churchward, the earliest members of the human race appeared in the interior of the African continent about two million years ago, then from the region of the Great Lakes they spread over the entire continent. Groups of these early men wandered down the Nile Valley, settled in Egypt, and then later dispersed themselves to all parts of the world...As these early Africans wandered over the world, they differentiated into the various human subspecies that now inhabit our planet. The men who remained in the tropical and equatorial regions retained their dark complexions, whereas those that settled in the temperate zones lost a portion of their dusky pigmentation and developed a fairer skin. Provided that the original racial profile of the Nile, Indus, and Tigris-Euphrates River Valley as well as the Aegean civilizations has been clandestinely confirmed as Black/African, then the female divinities worshipped in these civilizations should also logically be Black/African. Accordingly, in the beginning, to revise Stone, God was a Black woman.

Good information but highly repetitive

By Heather Sinclair

This book has a lot of good information from a lot of great sources, many known scholars. The author does not do much in the way of offering his own opinion or perspective, though, it is mostly a copy of other scholars organized for the reader to put together. So I give this three stars for the quality of the information, I would have given the book more stars but the author is HIGHLY repetitive. He repeats over and over and over the same information and the same quotes and also due to lack of editing, there are sentences and whole paragraphs that are repeated one right after the other. I was not at all impressed with the editing or the senseless repetition. Without all of that, the book would have been half the size leading me to wonder whether the author purposely repeated large quantities of information just to make the book longer. Either way, the information makes the price worth it, but be prepared to either re-read information or skip over it for the 3rd or 4th time.

Very In-Depth & Replete w/well documented references

By Tabia™

I found Professor Gibson's "tree-free ebook" very in-depth and replete with well-documented references from many educators, and scholars that I know as well as a few that bought "new" enlightenment. I appreciate his scholarship and the re-telling of a her story that must never be forgotten nor relegated to the abyss of amnesia-tic forgetfulness. In addition, I was also impressed with the fact that a male could affably spin this truth w/o bias, prejudice or hidden agenda. Therefore, I highly recommend this ebook to all truth seekers, like myself.
